# Two-Stage Social Mining Framework

1

## Passive income

Quattro allows you to earn money without personal invitations due to overflows from the entire system

Overflows come from all participants who register at Quattro

Duo works differently – there are no overflows from the system, but 100% of the income comes from your referrals

2

## Active earnings

If you build a team, you earn extra money in both Duo and Quattro

You choose a strategy of either completely passive income, through Quattro overflows, or fast cycles in Duo

Energy NFT Rewards with Native Ecosystem Token (\$POLLY)
